Sai Siri Kudaravalli

Guntur, Andhra Pradesh, India | +91 8328507912 | sirikudaravalli24@gmail.com
linkedin.com/in/saisirik | github.com/saisiri-dev

Objective

Motivated B.Tech Computer Science student with a strong foundation in Java, Python, JavaScript, SQL, and web development. Experienced in software development through a Full Stack Developer internship and hands-on projects involving application development, REST APIs, Git, and databases. Passionate about problem-solving, learning new technologies, and building reliable software solutions. Seeking an entry-level Software Engineer opportunity to apply my technical skills and grow in a professional development environment.

Education

KKR & KSR Institute of Technology and Sciences Aug 2023 – Jun 2027
Bachelor of Technology (B.Tech) – Computer Science & Engineering | CGPA: 8.43 / 10

Bhashyam Junior College Aug 2021 – May 2023
Intermediate (MPC) | Percentage: 92%

Dr. K.L.P Public School, CBSE Jun 2012 – May 2021
Class X | Percentage: 92%

Technical Skills

Programming Fundamentals: Java, Python, JavaScript

Web Fundamentals: HTML, CSS, React.js, Node.js, REST APIs

Database Fundamentals: SQL, MongoDB

Software Development Fundamentals: Object-Oriented Programming, Data Structures & Algorithms, Problem Solving, Debugging

Tools: Git, GitHub, VS Code

Cloud: AWS (Fundamentals)

ServiceNow: Service Catalog, Flow Designer, Business Rules, Client Scripts, UI Policies, Workflow Automation

Certifications

- AWS Certified Cloud Practitioner
- ServiceNow Certified Application Developer (CAD)
- ServiceNow Certified System Administrator (CSA)

Experience

Full Stack Developer Intern May 2025 – July 2025
Blackbucks Group – Guntur, Andhra Pradesh – Remote

- Gained practical exposure to modern web application development and collaborative software development practices
- Worked with Git and GitHub for version control; learned REST API integration, debugging, and Agile development methodologies
- Strengthened software development, problem-solving, and teamwork skills in a professional environment

Projects

Automated Network Request Management | *Application Development · Workflow Automation · ServiceNow*
GitHub | Demo

- Developed an enterprise application to automate the end-to-end lifecycle of network service requests, including submission, approvals, fulfillment, and completion
- Built a structured request catalog with role-based access for requesters, approvers, and support teams; implemented form validation and dynamic UI controls
- Designed and configured automated approval workflows, email notifications, and business logic for request processing and lifecycle management
- Enabled automated task creation and assignment, supporting seamless request progression from approval to completion
- Built reporting and dashboard views to monitor request status, approvals, and operational performance

CoolQuench – Self-Cooling Smart Water Bottle | *Academic Project*
Proposed an innovative product design using evaporative cooling, phase-change materials, and UV sterilization; authored a detailed feasibility and sustainability report; presented at the DTI showcase highlighting eco-friendly design principles.

Research Publication

Advancements in Quantum Computing and Security: Hybrid Architectures, Optimization, and Intelligent Systems

- First Author – published in the International Journal of Progressive Research in Engineering Management and Science (IJPREMS)
- Researched hybrid quantum computing architectures, quantum security, cloud computing, and intelligent systems; explored applications in healthcare, finance, cybersecurity, and cloud computing

Achievements & Extra-Curriculars

- Secured 3rd Place at the Guntur Centralized Hackathon – Hackmelaa 2026, among the Top 8 Finalist teams
- Active participant in college coding clubs and technical events, engaging in technical learning and project activities
- Volunteered in cultural events, supporting event management and student engagement
